

We need you!

**We would very much like to
meet you and talk**

Hjørring Kommune

It is no obstacle that you don't speak danish. Whether you have an education or not is not important...

Whatever your background is, we would like to meet you and talk about the job opportunities we have at the moment.

We need employees, and you can be one of them. Are you interested in working with elderly people? Nurturing them or doing practical jobs?

Below you can read more about what we do:

- Help with personal care, tidy up and clean for the elderly and help with laundry
- Participate in activities with the elderly. For example walks outside, games, singing, music and dance
- Assist with cooking and help the elderly with their meal

IN GENERAL, ABOUT THE ELDERLY DEPARTMENT IN HJØRRING MUNICIPALITY

Our most important task is to help and support the elderly in having a good and worthy life with as much quality of life as possible.

We make sure the elderly has care and nurture, no matter if they are sick and/or weak of old age. That way they are ensured good days, with the possibility of taking care of themselves as long as possible.

Many elderly people would like to remain in their own homes as long as they can.

When the elderly is no longer able to live alone, and manage with the help of a home carer, they can apply for a room at a care center.

HOME CARE IS HELP FOR CITIZENS IN THEIR OWN HOMES

In Denmark the elderly citizen can get assistance in the form of home caring and nursing. Home caring is help for citizens who live at home, but who can no longer manage by themselves. Examples of home caring can be help for personal hygiene, with meals, cleaning, and shopping. The assistance can be in the daytime, evening as well as nights.

CARE CENTER

A care center is a home for people, who are old or sick. You have to require a level of help and care that is so high, that it cannot be given in your own home.

At the care center, elderly is given care and supervision all 24 hours of the day. The employees are health professionals, who have an education in nurturing.

MEET TWO OF OUR FOREIGN COLLEAGUES 😊

Name: Anita Kryzstofiak
Coming from: Poland
Working as: Social and Health Care Worker
Working with: Løkken Home Care, Hjørring Municipality

It means a lot to me to be working with home care. I am proud to be working with elderly people.

I am happy to be able to provide dignity and a high quality of life to citizens in their old age. And to help the weakest of the citizens get their most basic needs fulfilled, giving them content in their lives.

I help solve a number of specialized and exciting challenges during a workday. No two days are alike.

I learn something new every day. I have a lot of good colleagues, and the social aspect as well as the community at work means very much to me.

Name: Djenana Maric
Coming from: Bosnia
Working as: Social and Health Care Worker and Staff Representative
Working with: Vesterlund Care Center, Hjørring Municipality

I am 48, married and live with my husband and 3 kids in Hjørring. In 1993 I arrived in Denmark as a refugee along with my current husband, Alexander. We fled from our country because of a civil war.

The first 3 years we lived in different refugee centers. First in Gentofte, then Næstved, Vigsø Bay, Hanstholm and finally we arrived in Hjørring.

I remember very clearly how hard it was to go through the process of seeking asylum, getting a residency permit, and making a life for ourselves. All the while trying to get to know people, learning a new language and living in a different culture.

I have been employed in Hjørring Municipality since 1997. First as a bilingual pedagogical assistant in a kindergarten.

Then in 2004 I became a Social and Health Care Worker and in 2014 I further educated myself and became a Social and Health Care Assistant.

I love my job. I have a positive approach to life, and it makes me happy for my life as well as my job.
