

## **EXCITING INTERNSHIP OPPORTUNITY IN A DEDICATED EDUCATIONAL ENVIRONMENT FOR SOUND**

### **Ambitious educational project in Struer – City of Sound is looking for an intern.**

*A unique opportunity to work within a dedicated ecosystem for sound - across public institutions, private companies, cultural actors and educational institutions.*

We are looking for an intern who is ready to put their academic skills to work and develop their professional competencies in a unique ecosystem where public institutions, private companies, cultural actors and educational institutions work together to create new educational formats to support the development in the area.

### **Your tasks**

The intern's tasks will be defined in collaboration with the individual applicant to match their field of study and general interest.

Tasks could lie within, for instance ...

- Educational development and/or cross-sectoral co-creation
- Research and development of new educational concepts
- Communication, PR and online visibility
- Coordination, planning and implementation of summer schools, events, etc.
- Building and facilitating social and professional communities

In addition, the intern is expected to participate in the association's ongoing tasks and activities, to gain insight into our collaboration and partners across the ecosystem.

### **Your qualifications**

You can apply as a BA- or Master students from a wide range of study fields - educational science, humanities or subjects within the aesthetic field; social science; journalism/media/communication; culture/event management, audio design, or ...

The important thing is that you are eager to unfold your special expertise in the project while you are here, and at the same time participate in planning, communication and the implementation of the ongoing tasks and activities.

The position requires a high degree of self-management. There may be days when you are alone with the tasks - but you will never be alone in the office. You will be part of an extended collegial network of both Danish and international sound professionals, including especially colleagues in Sound Hub Denmark, Sound Art Lab, Lydlaboratoriet and many other stakeholders in the City of Sound.

### **Workplace and working hours**

- The workplace is Sound Hub Denmark, Peter Bangs Vej 17, 7600 Struer,
- Working hours are normally weekdays 8:30 - 16:00. Evening and weekend arrangements may occur.
- If you are working on a semester project, we will of course organize your working hours accordingly.

---

## About 'Uddannelsesinitiativet i Struer'

- Uddannelsesinitiativet i Struer (The Educational Initiative in Struer) is a local association, founded in 2023. The purpose is to attract, develop and run educational offers related to Struer's stronghold in the field of sound, and support the common ambition to be The Silicon Valley of Sound.
- The association collaborates with several Danish educational institutions and is part of various partnerships and networks, including the Nordic Podcast Academy partnership. Every year, we run a wide range of teaching and educational activities with sound as a common denominator. We host modules in prototype building, we have camps and diploma courses in podcasting, and we run the two international summer schools ([The Innovation Camp](#) and [Sounding City Summer School](#)). In addition, we arrange events and networking days such as the 'Forskningens Døgn', [Nordic Podcast Festival](#) and day trips and seminars for both students and researchers.
- Since 2025, we have been running [89 Sound Art School](#) in collaboration with Sound Art Lab
- Last, but not least, we facilitate accommodation for interns and facilitate networking activities for interns and other education seekers while they are staying in Struer.

## Common internship concept for the City of Sound.

Struer is the City of Sound, and since 2013 - as the only city in the world - has worked strategically to use sound as a driver for municipal development under this brand. As an intern in the City of Sound, during your internship you will have the opportunity to gain insight into the many different ways in which the area's companies, public institutions and cultural actors work with sound.

Through company visits, presentations and workshops, you will expand your understanding of the interaction between the city, companies, citizens, cultural institutions and all the other actors in the local ecosystem in which we work, and you can expand your professional network both with the other interns in the city and with our partners a wide range of Danish and international companies and institutions.

Furthermore, we support you in finding local accommodation - at availability, at our own student dorm.

You can read more about the internship concept on our [website](#).
